For this position please apply with your complete application documents: CV, references, transcripts (university, Abitur).

HOW YOU'LL IMPACT.

Holistic project work.

Analysis of processes, procurement organizations and product groups. Development of suitable strategies and measures to optimize the supply chain and the strategic procurement process. You will implement these strategies and realize real results for the customer.

Broad range of challenges.

Broad customer portfolios and project assignments at home and abroad for a wide variety of industries and customers. From start-ups, retail, consumer goods, or the energy and automotive industries, to the pharmaceutical and healthcare sectors.

Intensive customer consulting.

Working closely with customers, preparing and participating in workshops and negotiations. You will present processes and structures, be a direct contact and convince customers by quickly gaining know-how in their respective industries.

Cross-industry development.

You will help to build knowledge across the company by participating in various competence centres. And in this way, you will also further develop your skillset in new subject areas.

WHAT YOU'LL BRING.

Bachelor's or Master's degree with above-average grades.

Practical experience in procurement, supply chain management, operations or consulting during your studies.

Ability to think analytically, be flexible with mobility, have enthusiasm for new tasks and gain pleasure from performance-driven work.

You thrive in a team, stay grounded, treat others with fairness, and bring authenticity to every interaction.

Confident appearance in an international environment, **business fluent in both German and English**.

TOGETHER, WE BENEFIT.
